25X1A 25X1A 25X1A 25X1A	Comment. Guestrow as loading station indicates that the VP train carried elements of the Panzer Offizier Schule of the KVP in Guestrow-Priemerwald. It appears possible that this school will be transferred to Grossenhain. as the KVP previously stationed in Grossenhain moved to Oranienburg. Panzer Unteroffizier Schule of the KVP is located in Zeithain, northwest of Grossenhain. The stationing of the Panzer Offizier Schule of the KVP in a post near to Zeithain may be advantageous with regard to both training and organization
25X仜 25X1A	Comment. This troop train carried a tank unit of the lst Mecz Div which moved to Neustrelitz.
25X1A	Comments. The VP train carried an engineer battalion of the KVP. As the dispatching and receiving stations are unknown, no definite conclusions can be drawn as to the purpose of this train. It is possible that the engineer battalion belongs to one of the planned new Armeegruppen which are known to be stationed in Dresden, Leipzig and Dessau. However, the engineer battalion may have also been moved to the Elbe River for field exercises. The dispatching station may be Kuechensee, Treuenbrietzen or Fuenfeichen near Neubrandenburg, as engineer battalions of the KVP are stationed in these places.
